FVTC Health Services provides:

- First aid care.
- Educational information about common health problems.
- Palliative treatment for minor illness and injury so that the individual can return to regular activity, reach home safely, or referred to a physician.
- Flu shot clinic in the fall (fee is charged).
- Immunizations for measles, mumps, rubella (MMR), Tdap, and hepatitis B are available to students who qualify financially.
- Tuberculin skin test (Mantoux) for student who need it for school.
- Over the counter medication for cold, allergy, headache or other pain, upset stomach, diarrhea, cough, and menstrual cramps.
- A place to rest if you become ill.
- A private room for mom to pump breast milk or nurse.

FVTC Health Services will offer consultation services to students who:

- Are concerned about a health problem in relation to themselves or their family.
- Need assistance with a referral to a physician or other community agency or healthcare provider.
